Social media also covers blogs and video and image sharing websites such as YouTube, Instagram, TikTok and Flickr.
- 5.2 Wellesley Primary School defines 'members of the school community' as:

 - Parents/Carers
 - Pupils
- 5.3 Wellesley Primary School defines 'cyber bullying' as any use of social media or communication technology to bully an individual or group.

6. Training of Staff

Social Media

- 6.1 Teachers and support staff will receive training on the Social Media Policy as part of their new starter induction and have an annual review of the key points at the beginning of each academic year.

7. Social Media use - Staff

- 7.1. All school staff should be aware when using social networking sites that anything said, shown or received could be made available to a wider audience than originally intended. They should follow and understand the following principles:
- Employees and individuals otherwise engaged by the school are not permitted to access social networking sites for personal use via school information systems or school equipment at any time.
 - They must not accept pupils/students as 'friends' and must not approach pupils/students to become their friends on social networking sites. Personal communication of this nature could be considered inappropriate and unprofessional and make that individual vulnerable to allegations.
 - Any student-initiated communication, or on-line friend requests must be declined and reported to the Headteacher or designated school child protection colleague.
 - Staff are advised not to be online friends with ex pupils of the school or pupils from other schools.
 - They should not share any personal information with any pupil; including personal contact details, personal website addresses or social networking site details.
 - If staff are online 'friends' with any parent/carer linked with the school, they must ensure that they do not disclose any information or otherwise post details which may bring themselves or the school into disrepute. Staff must not engage in any on-line discussion about any child attending the school via social media.
 - School staff must not disclose, on any social networking site, any information that is confidential to the School, Governing Body, or Local Authority; or post anything that could potentially bring the School, Governing Body or Local Authority into disrepute.
 - They must not disclose any personal data or information about any individual/colleague/pupil, which could be in breach of the General Data Protection Regulation.
 - Staff should not post photographs of pupils, under any circumstances, and should not post photographs of colleagues or others in the school community without their express permission.
 - Care should be taken to avoid using language which could be deemed as offensive to others.
 - Staff are strongly advised to take steps to ensure their on-line personal data is not accessible to anybody they do not wish to access it. For example, they are advised to check the security and privacy settings of any social networking site they subscribe to and set these to maximum.

- 10.7 If parents continue to break the rules, the school reserves the right to ban cameras, phones and videos from school events.
